

# Medicaid **covers** US Kansas

## KanCare helps people with cancer

Cancer patients and survivors — our family, friends, neighbors and co-workers — rely on Medicaid.

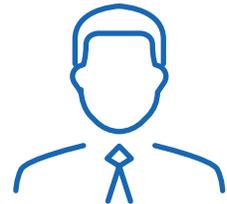

Over **400,000**  
Kansans are covered  
by KanCare

Approximately  
**3,500** Kansans with  
cancer relied on  
KanCare coverage  
2007-2015

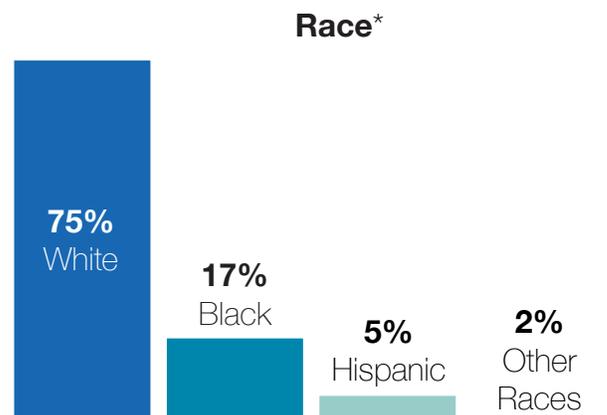

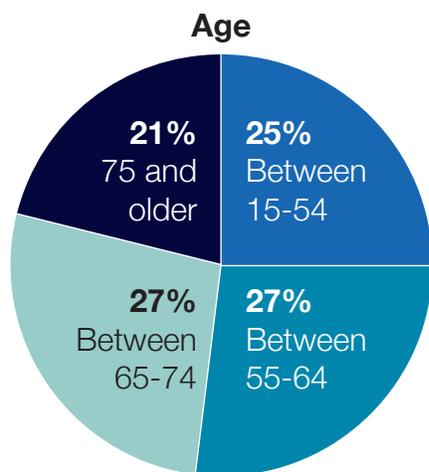

Nearly **70%** of  
KanCare enrollees  
with cancer are  
women

Over **30%** of  
KanCare enrollees  
with cancer are  
men

## Demographics of KanCare enrollees with cancer

\* percentages do not total 100% due to rounding

## KanCare enrollees with a cancer diagnosis are a cross-section of Kansans

- ★ **30%** have a high school diploma or GED
- ★ **17%** have completed a bachelors or associates degree
- ★ **1 in 11** have served in the armed forces
- ★ **1 in 6** worked in the last 12 months

Analysis provided to ACS CAN by Avalere Health. *Medicaid Covers US: Profiles of Medicaid Enrollees with Cancer*. Analysis performed March 2019. Analysis performed from data collected from Medicaid enrollees over the age of 15.
