\$1 Billion Increase
to Fund the National Cancer Institute

I can picture a cure for...

can Picture A Cure when you support an increase in funding for the National Institutes of Health and National Cancer Institute. We know that cutting edge cancer research at the National Institutes of Health and National Cancer Institute is leading to improved treatments that have the potential to improve and even save the lives of millions of Americans. We are now at a time where we can prevent approximately 50 percent of cancer deaths - but more progress is needed. We are calling on Congress to maintain the momentum and to continue increasing funding for lifesaving cancer research. **is your constituent, I am asking you to support an increase in funding for the National Cancer Institute.
