

**Follow-up email message for after your call with a lawmaker or their staff:**

Greetings, (Who you met with).

Thank you for speaking with me during the Indiana Cancer Action Day, January 27<sup>th</sup>.

As your constituent I urge you to invest in the health of Hoosier women and maintain our state's investment in the Breast Cervical Cancer Program (BCCP). This program saves lives with over 4,000 women relying on the program annually.

**Do you have a breast or cervical cancer story to include?**

Breast cancer is the second leading cause of cancer death in our state, and the most frequently diagnosed cancer among women in Indiana. Supporting the continual investment in Indiana's Breast and Cervical Cancer Program means you understand how important this program is to the 41,000 eligible Hoosiers and the 4,000 women who use this program annually.

You have the power to make a difference for the women in our state and their families. Support maintaining the funding for this important program in our next state budget.

ACS CAN put together a [virtual folder with additional information about Indiana's Breast and Cervical Cancer Program](#), please take a minute to review and let me know if you have any questions. I will gladly connect you with our Government Relations Director, Bryan Hannon for follow-up at [bryan.hannon@cancer.org](mailto:bryan.hannon@cancer.org).

With hope,

Your name.

**If you left a voicemail:**

Greetings, (Who you met with).

My name is XX and I am a volunteer with ACS CAN from XX, Indiana.

During the Indiana Cancer Action Day on January 27<sup>th</sup>, I left a voice message for you or I left a message with a member of your staff about Indiana's Breast and Cervical Cancer Program.

As your constituent I urge you to invest in the health of Hoosier women and maintain our state's investment in the Breast Cervical Cancer Program (BCCP). This program saves lives with over 4,000 women relying on the program annually.

**Do you have a breast or cervical cancer story to include?**
