

# Congress, let's end the year by helping end cancer as we know it.

**To Do:**

**Increase Funding for Cancer Research and Prevention at NIH, NCI, and CDC**

**Pass the Medicare Multi-Cancer Early Detection Screening Act**

**Pass the Palliative Care Hospice Education Training Act**

The clock on 2022 is running out but we can still make a difference and save lives. We must finish strong by passing a year-end bill that makes fighting cancer a priority.

Congress, do your part to help end cancer as we know it, for everyone.
