

Dear [Name],

As you many know I am involved with the American Cancer Society Cancer Action Network (ACS CAN). Through public policy and advocacy, we are working to end cancer as we know it, for everyone.

One of ACS CAN's major events is our bi-annual state lobby day. After four years of virtual advocacy, we are finally headed back to Madison with our coalition partner the American Lung Association.

On Wednesday, April 19th volunteers and advocates will gather at the statehouse for an impactful day of action including training, special guests, and meetings with lawmakers to stand up for patients. By meeting with lawmakers, we can help improve the lives of thousands across our state.

I would love to invite you to join me for this fun and impactful day of action. [You can register here.](#) If you've never participated in a meeting with a lawmaker don't worry. ACS CAN provides us with the training and resources we need to be successful advocates.

[I hope you'll join me on April 19th to help expand access to health care for all Wisconsinites!](#)

Sincerely,

[Your Name]
