

Leadership Summit & Lobby Day 2020 | Photos

Each year during Leadership Summit & Lobby Day (LS&LD) we capture hundreds of photos of our advocates in action in Washington, DC. With this year's virtual event, we still want to document and share the impressive training, strategizing and advocating you're doing on behalf of cancer patients ...but from your own home! Please use this guide for taking and submitting photos throughout this year's LS&LD!

DOs and DON'Ts for Taking Quality Photos Right at Home

DO

Show your ACS CAN pride! Advocates are *strongly* encouraged to include ACS CAN branding in photos. Throw on your light blue polo, put on an ACS CAN hat, hold up your red, white & blue water bottle; include the ACS CAN logo any way you can.

Display your individual style and how you're joining LS&LD virtually from your living room, backyard or kitchen table.

Position yourself with **bright, direct lighting** on your face, looking straightforward into the camera.

Feel free to use **"selfie" mode** on your smartphone or with your computer's webcam, or **ask a member of your household** to snap a pic of you.

DON'T

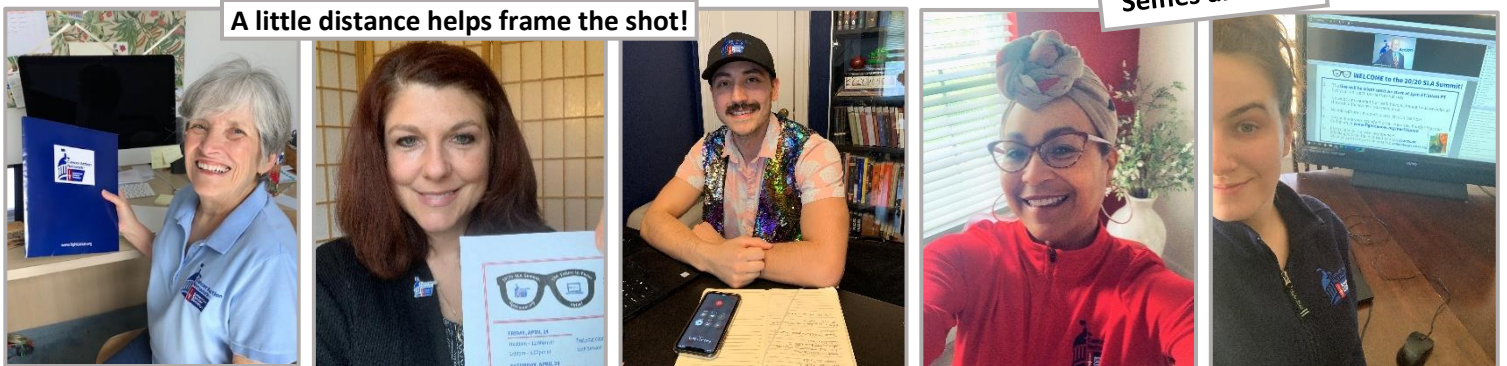

Wear or display logos for Cancer Votes, Relay For Life or Making Strides Against Breast Cancer.

Wear busy patterns or pose in front of distracting backgrounds.

Position yourself with a bright light (like a window) behind you.

Worry about being perfect. Authentic photos are the best photos.

Photos Catching Advocates in Action!

Take a great shot by: being in focus, featuring your face & ACS CAN logos, and showing your personality!

Please Share Your Photos with ACS CAN!

Option 1: If you share your photos or videos on social media – Facebook, Instagram, Twitter, yes! – be sure to use the hashtag **#CancerLobbyDay** or **#LightsOfHope**. This way, **@acscan** staff can find and save them.

Option 2: Upload your photos right on **fightcancer.org** and include a caption.

By sharing your image via social media or submitting via the link above, you consent to photography, audio recording, video recording and/or its release, publication or reproduction to be used for promotional, advertising, website or other purposes by ACS Inc. or ACS CAN.
