The CPRIT Legacy Series

2026

Texas has a story worth celebrating and a future worth fighting for. We are proud to present The CPRIT Legacy Series, a virtual Lunch & Learn series where you'll learn about how the Cancer Prevention & Research Institute of Texas is transforming cancer prevention, treatment and research for millions of Texans!

Join us for inspiring conversations with CPRIT-funded researchers and volunteer advocates who will share how CPRIT's work is making a difference today and why protecting this investment matters for tomorrow.
