

FIGHT CANCER: MAKE TIME

Help end cancer as we know it, for everyone, by ensuring the highest possible funding increases are realized in the final version of the FY24 spending bill. When Congress returns in the new year, please work in a bipartisan way to finish the FY24 bill. Progress in the fight against cancer is at risk without action. I ask that you support the **highest possible increases** for cancer research & prevention programs in the final FY24 funding bill.
