Congress: Fighting cancer creates
the moments that make life special.

**Increased funding for cancer
research at the National Institutes
of Health and National Cancer
Institute impacts real people.**

FIGHT CANCER : MAKE TIME

fightcancer.org

 **thriving
Liza**

Cancer research made it possible.

Support the highest possible increases for cancer research programs at the NIH and NCI in the FY 2024 budget to make time for stories like Liza's. More than 1.9 million people will be diagnosed with cancer in 2023 alone. But by investing in the research of today, you're helping prevent, detect, and treat many of the cancers of tomorrow, creating countless moments for survivors like Liza and their loved ones in the process.

FIGHT CANCER : MAKE TIME
