

# Welcome to Cancer Action Day

Dear Hawai'i Advocates,

Thank you for your willingness to participate in our 2026 Cancer Action Day.

As a leading health advocacy organization, we work every day to encourage elected officials to make cancer a top priority. We support evidence-based solutions designed to eliminate major health problems. And together, we bring together ordinary people with extraordinary power to fight cancer with the training and tools they need to make their voices heard.

We want our Cancer Action Day to be an opportunity for all of our volunteers to come together, unite our voices, and ask our elected officials to actively support the fight against cancer. We hope you will find our event energizing, exciting, and personally rewarding.

Included in this packet and your folder are all the resources you will need to advocate successfully with your lawmakers. We truly appreciate your commitment to advocacy and look forward to the great accomplishments we'll achieve together.

Thank you for all you do to help us fight cancer.

Keep fighting!

***Let's get started!***

# 2026 HAWAI'I CANCER ACTION DAY

# AGENDA

- 9:00 a.m. - 9:30 a.m.** Check-In Hawaii State Capitol RM 437
- 9:30 a.m. - 10:00 a.m.** Welcome and Cancer Action Day Overview
- Welcome
  - Logistics / Overview of Day
  - 2026 Legislative Priorities
  - Lawmaker Welcome
- 10:00 a.m. - 3:00 pm** Lawmaker Meetings
- 11:30 a.m.** Senate Chamber
- 12:00 p.m.** House Chamber
- 12:30 p.m.** Group Photo  
Lunch
- 3:00 p.m.** Adjourn
- Thank you
  - Report Back Forms - Online

# Hawaii State Capitol: Where to find us

**Carpooling from ACS Office:**  
**2370 Nu'uuanu Avenue**  
**8:45 AM – 9:00 AM**

**Event: Hawaii State Capitol**  
**415 S Beretania St. – RM 437**

**1. Entrance to the State Capitol is on the Street level on Beretani or Chamber level (underground parking).**

- The capitol is under construction, you will see large murals surrounding the capitol. Find the stairs on Beretania side or from Iolani Palace side.

**Security checkpoint:**

- - No firearms or weapons are allowed.
- - If you have a purse, keep your keys and phone in it.
- - If you do not have a purse, security will provide a container to put these in.
- **BRING YOUR ID** or you will not be able to enter.

**2. Once through the checkpoint, take the elevator up to the 4th floor, and look for Room 437.**

- We will provide coffee and very light pastries, however if you would like any additional food/drink, there is a snack shop on the chamber level or eateries in downtown.

**Look for the group in blue shirts! You'll see our smiling faces when you get there!**

## 2026 Hawai'i Legislative Priorities

Victory in the fight against cancer requires bold new public policies that promote cancer prevention, early detection of cancer, and expand access to quality, affordable health care. Lawmakers make many decisions that impact the lives of the people of Hawai'i impacted by cancer and their leadership is vital to defeating this disease. In 2026 the American Cancer Society Cancer Action Network (ACS CAN) will work with the Hawai'i State Legislature on legislative and regulatory efforts that provide affordable, adequate access to lifesaving cancer screening and prevention programs, health equity and improved coverage towards cancer treatment. We will be making the following fact-based policies a priority and ask for your support:

### Ensuring Access to Colorectal Screenings: HB 1969 HD2

Everyone deserves equitable access to quality cancer care and the opportunity to live a full, healthy life. ACS CAN advocates for ensuring more individuals, including uninsured and underinsured individuals, have access to colorectal cancer (CRC) screening including the follow-up colonoscopy required after a positive non-invasive test.

### Hawaii Tumor Registry & Cancer Research: HB 1970 HD2

ACS CAN will work to protect and increase appropriations to support Hawaii Tumor Registry which provide the data-driven foundation for the state cancer control efforts and only cancer surveillance program in Hawai'i.

### Expanding Access to Biomarker Testing Coverage: HCR 35, SCR 76

ACS CAN will advocate for improved coverage of comprehensive biomarker testing. Progress in improving cancer outcomes increasingly involves the use of precision medicine, which uses information about a person's own genes or proteins to better diagnose and treat diseases like cancer. Biomarker testing is an important step to accessing precision medicine which includes targeted therapies that can lead to improved survivorship and better quality of life for cancer patients, but insurance coverage for biomarker testing is failing to keep pace with innovations and advancements in treatment.

### Other priorities:

Fertility Preservation: HB 1864 HD2

Local Control: HB 1563 HD2

Maui Wildfire Exposure Study and Maui Health Registry: HB 2340 HD1, SB 2969 SD1

Medical Debt: SB 3025 SD2; HB 2187 HD1

For more information, contact: Cynthia Au, Hawaii Guam Government Relations Director, ACS CAN

# HAWAI'I 2026 LEGISLATIVE ASKS

## 1 Ensure Access to Colorectal Screenings: HB 1969 HD2

Everyone deserves equitable access to quality cancer care and the opportunity to live a full, healthy life. ACS CAN advocates for ensuring uninsured and underinsured individuals have access to preventive colorectal cancer (CRC) screening and necessary treatment by funding a public assistance program. This includes following federal guidelines on preventive colorectal screenings, such as the follow-up colonoscopy required after a positive non-invasive test.

### **ASK: Will you support HB 1969 HD2 to help ensure more Hawai'i residents receive timely, life-saving colorectal cancer screenings?**

- Preventable: Most colorectal deaths in the U.S. are preventable through screening and early detection.
- Colorectal cancer is the 2nd most diagnosed and deadliest cancer in Hawai'i and the U.S. among men and women.
- A recent study found that colorectal cancer is now the leading cause of cancer deaths among people 50 years and younger—making it the fastest-growing cancer threat for working-age adults.
- Barriers: Affordability - Cost is one of the most significant barriers to screening.
  - Given the impact of HR1 on Medicaid, it's anticipated that more residents will be uninsured, creating an additional barrier to screening.
- Public assistance funding for CRC screening including colonoscopy after a positive noninvasive screening test for uninsured and underinsured residents would:
  - Prevent cancer through early polyp removal
  - Catch cancer earlier when treatment success is highest
  - Reduce long-term treatment costs
  - Protect communities most impacted by coverage gaps, especially changes in health care coverage
  - High-value investment, with significant health equity impact.

#### **Hawaii statistics:**

- 840 residents will be newly diagnosed with CRC in 2026, and 260 will die this year.
- Hawai'i ranks 12th highest rate of NEW CRC cases in the US between 2019 to 2023.
- Nearly 59% of new CRC diagnosis are late stage
- Late-stage diagnoses, colorectal cancer treatment can cost over \$100,000.
- In 2022, 64% Hawai'i residents reported being unprepared to pay for their cancer treatment.

# COLORECTAL CANCER DISEASE IN HAWAI'I

**Colorectal cancer (CRC) is now the leading cause of cancer-related death among men and women under age 50.**

**In Hawaii, 820 residents will be newly diagnosed with CRC, and 260 will die, in 2026.**

**Colorectal cancer is the 2nd most diagnosed and deadliest cancer in Hawai'i and the U.S. among men and women. Screening prevents CRC and helps with early detection.**

Hawaii's CRC new case rates per 100K are above U.S. rates.1

**58.6%** of new CRC diagnoses in Hawaii are, on average, **late-stage**

**Screening is the key to reducing CRC new cases and deaths.**

**Only 10.5%** of Hawaii residents ages 45-75 completed a stool test in 2022 and only 54% completed a colonoscopy.

17% of individuals completed a stool test prior to a colonoscopy.

In 2021, The USPSTF\*\* lowered the screening age range from 50-75 to 45-75 years.

**45 years** screening age

**AANHPI are screened at lower rates than their white counterparts**

**41%** of AANHPI ages 45 for CRC.

**57%** of white individuals aged 45 years and older are screened for CRC.

Despite increased accessibility, CRC screenings remain low compared to breast and cervical cancer screenings.

**Barriers to screening include:**

- financial barriers, such as cost-sharing or lack of health coverage
- failure to recommend screening by providers
- transportation.
- language barriers
- patient fear 6

**Removing financial barriers such as cost-sharing is an effective way to improve screening rates.**

For late stage diagnoses, colorectal cancer treatment can cost over \$100,000.

In 2020, the total medical expenditure for CRC care was approximately \$24.3 billion, making it the second most costly cancer type after breast cancer.

**Why is this important?**

In 2022, **64%** Hawai'i residents reported being **unprepared to pay** for their cancer treatment.

A study among Medicare enrollees found that removing the 20% coinsurance for a colonoscopy with a polyp removal or a follow-up colonoscopy would be **cost effective** if the screening rate increased by only 0.6 percentage points.

# HAWAI'I 2026 LEGISLATIVE ASKS

## 2 Fund Hawaii Tumor Registry HB 1970 HD2

ACS CAN will work to protect and increase appropriations to support Hawaii Tumor Registry (HTR) which provide the data-driven foundation for the state cancer control efforts and is the only cancer surveillance program in Hawai'i.

### **The ASK: Will you support HB 1970 HD2 to prevent cuts to Hawai'i's cancer surveillance system and protect critical public health data?**

Federal cuts to the National Cancer Institute's Surveillance, Epidemiology, and End Results (SEER) program have reduced Hawaii Tumor Registry (HTR) funding.

- HTR is the state's only comprehensive cancer surveillance program - the backbone of cancer surveillance in our islands.
  - Under the UH Cancer Center

Cancer is the second leading cause of death in Hawai'i.

- This year, more than 9,400 residents from Hawai'i will be diagnosed with cancer, and more than 2,400 residents expected to die from the disease.
- Cancer is the leading cause of death among Asian Americans and the second-leading cause among Native Hawaiian and other Pacific Islander individuals.
- Hawai'i is one of the most diverse states in the country and HTR helps to identify disparities.

HTR provides the information for clinicians, researchers, and policymakers to:

- Target cancer screening programs in underserved communities
- Rapid response to cancer clusters
- Identify emerging trends and other urgent public health concern
- Monitor trends and guide prevention strategies

# HAWAI'I 2026 LEGISLATIVE ASKS

## **3** Ensure Access to Quality Care: Biomarker Testing: **HCR 35, SCR 76**

ACS CAN supports coverage of comprehensive biomarker testing. Progress in improving cancer outcomes increasingly involves the use of precision medicine, which uses information about a person's own genes or proteins to better diagnose and treat diseases like cancer. Biomarker testing is an important step to accessing precision medicine which includes targeted therapies that can lead to improved survivorship and better quality of life for cancer patients.

### **The ASK: Will you support an auditor's study to assess the social and financial impacts for biomarker testing coverage, HCR 35 and SCR 76?**

Biomarker testing can be used to determine the best treatment for a patient and is used to match patients with the right treatment, at the right time.

- Require state-regulated insurance plans including Medicaid to cover comprehensive biomarker testing when supported by medical and scientific evidence.
- When someone gets biomarker testing as defined in this legislation, they have already developed cancer or another disease, and the testing is used to determine which treatment is appropriate and/or how aggressive their disease may be.
- Disease and stage agnostic

Insurance coverage for biomarker testing is failing to keep pace with innovation and advancement in treatment:

- 43% of the 198 oncology drugs approved between 1998 and 2022 require biomarker testing prior to use.
- In 2000, 15% of cancer clinical trials involved biomarkers; 2018, 55% of cancer clinical trials involved biomarkers.

Twenty-three states have recently passed legislation to expand coverage of comprehensive biomarker testing.

Access to appropriate biomarker testing can help to achieve better health outcomes, improved quality of life, and reduced costs.

# EXPAND ACCESS TO BIOMARKER TESTING IN HAWAII

THE RIGHT TREATMENT AT THE RIGHT TIME

## WHAT IS BIOMARKER TESTING?

**Biomarker testing is often used to help determine the best treatment for a patient.**

- It is the analysis of a patient's tissue, blood, or other biospecimen for the presence of a biomarker.
- Biomarker testing is an important step for accessing precision medicine, including targeted therapies that can lead to improved survivorship and better quality of life for cancer patients.
- While most current applications of biomarker testing are in oncology and autoimmune disease, there is research underway to benefit patients with other conditions including heart disease, Alzheimer's disease, and other neurological conditions, rare disease, infectious disease and respiratory illness.

## THE IMPORTANCE OF BIOMARKER TESTING

Of the 198 oncology drugs approved between 1998 and 2022 require biomarker testing prior to use <sup>1</sup>

Of cancer clinical trials involved biomarkers<sup>2</sup>

## BIOMARKER TESTING & HEALTH EQUITY

- **Not all communities in Hawaii are benefiting from the latest advances in biomarker testing and precision medicine.**
  - Patients who are older, non-white, uninsured or Medicaid-insured, are less likely to be tested for certain guideline-indicated biomarkers.
  - There are lower rates of testing in community settings versus academic medical centers.

## THE BOTTOM LINE

**Access to appropriate biomarker testing may help to achieve:**

- better health outcomes
- improved quality of life
- reduced costs

Of oncology providers reported that insurance coverage is a **significant or moderate barrier** to appropriate biomarker testing for their patients

**Insurance coverage for biomarker testing is failing to keep pace with innovation and advancement in treatment.**

- Without action, this could increase existing disparities in health outcomes by race, ethnicity, income and geography.

**Twenty-three states have recently passed legislation to expand coverage of comprehensive biomarker testing.**

**In Hawaii:**

Of fully insured covered lives are enrolled in a plan with coverage that is more restrictive than National Comprehensive Cancer Network guidelines <sup>4</sup>

# SUPPORTERS OF HAWAII BIOMARKER TESTING LEGISLATION HCR 35 & SCR 76

Patients should be able to get biomarker testing when it is ordered by their doctor and there is sufficient evidence that it can help guide their treatment. **But that's not what's happening today.** As my experience and others show, currently insurers in Hawai'i can limit access to proven and necessary testing. To help future patients avoid the stress and struggle that I've experienced, I'm urging you to support HCR 35 and SCR 76

# 2026 HAWAI'I CANCER ACTION DAY Lawmaker Mtg Info

## Meeting Outline:

Hook: Leader makes introductions.

Line: Explain the need.

Sinker: Make the ask.

## Reminders:

Be polite and professional to lawmakers and staff.

It is okay to look at your notes!

Your personal story matters more than anything else.

Your legislators work for you and your voice matters!

Take a photo!

# #HICancerActionDay

# Hook, Line, and Sinker

**The hook, line and sinker strategy will help ensure you cover key messages and conduct an effective and successful meeting with your lawmaker.**

## **Hook: Who You Are**

Tell them who you are. Remember, you are a voter, a survivor/caregiver/advocate and their constituent. Make sure everyone in the group introduces themselves.

Be careful. A little small talk is acceptable but stay on message and don't be drawn into storytelling off topic – you'll never know where the time went!

State why you are here by introducing the ask/s.

## **Line: Share your stories and statistics.**

Be informative, be thorough and be concise. Provide your lawmaker with personal stories. They'll appreciate real-life examples that put a human face on the issue.

Discuss how the legislation will directly affect you, your friends and your family.

Personal stories truly make an impact and achieve results.

## **Sinker: The Request**

Ask your legislator their position on the issue. Be polite, direct and specific. Wait for their response. It is important to get a clear answer to provide on your report back form.

Answer any questions to the best of your ability. If you don't know the answer, it's OK to say "that's a good question, I'm not positive on the answer, and I'll need to get back to you." Don't answer any questions you're not 100% sure you know the answer to – make sure to list them on your report back forms. This is an excellent opportunity for staff to follow-up with the lawmaker after our day!

Leave on a positive note. As you wrap up the conversation, repeat one last time what action you hope the lawmaker will support. Make sure your lawmaker and/or their staff member receives a copy of the leave-behind materials. Thank them for their time and offer to be an ongoing resource.

**#HICancerActionDay**

# Hook, Line, and Sinker, Continued

## Hook

Who you are, where you're from -- Leader introduces the rest of the group.  
"We are here to today to ask for..."

## Line

What is the problem we are trying to solve? \_\_\_\_\_

What is the proposed policy solution?

\_\_\_\_\_

What is a data point to back up that solution? \_\_\_\_\_

**Share your cancer connection and how it relates to the ask.**

**Add your personal story:**

Why are you passionate about the fight against cancer?

How can you find a connection to the days asks? \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

## Sinker

"In conclusion..."

We're asking \_\_\_\_\_

Will you support [State Issue] to help cancer patients by

\_\_\_\_\_

**Don't forget the "thank you"!  
The appreciation goes a long way  
Feel free to ask for a picture AFTER your meeting**

**#HICancerActionDay**

# Lawmaker Meetings: Suggested Script

"Thank you, Representative/Senator \_\_\_\_\_, for taking the time to meet with your cancer-fighting constituents today.

My name is \_\_\_\_\_ and I am an ACS CAN volunteer. With me are constituents and advocates from around your district to talk about their cancer stories. **Introduce constituent(s) in the room with you.**

During this meeting we would like to discuss:

- Supporting a public assistance program on preventive colorectal screenings for uninsured and underinsured in Hawai'i, HB 1969 HD2.
- Support funding of Hawai'i's Tumor Registry, HB 1970 HD2.
- Supporting an auditor study on biomarker testing coverage, HCR 35 and SCR 76.

**This is important to me because (share your personal story and connect it to the importance of [state issue]. If another volunteer has a personal story that has a strong connection, please introduce them and have them speak. Keep it brief.)**

## The ASK:

- Will you support HB 1969 HD2 to help ensure more Hawai'i residents receive timely, life-saving colorectal cancer screenings?
- Will you support HB 1970 HD2 to prevent cuts to Hawai'i's cancer surveillance system and protect critical public health data?
- Will you support an auditor's study to assess the social and financial impacts for biomarker testing coverage, HCR 35 and SCR 76?

*Remember, we want to hear a yes or no answer.*

- If your elected official answers yes to this question that is great! Thank him/her for their support.
- If your member answers no, ask why and if there is further information you can provide after the meeting. Include that information on your report back form.
- If your member doesn't give a direct yes or no answer, ask for clarification.
- You should plan to follow-up with your lawmaker 1-2 weeks after your meeting (by phone or email) to ensure their questions are answered and check on their level of support.

**#HICancerActionDay**

# Lawmaker Meetings: Suggested Script

## The CLOSE:

Before we leave, can we take a photo with you?

Thank you for taking the time to meet with all of us and for all that you do for the people of Hawaii and your support of cancer related issues.

**Please note:** this script is a framework for your conversation. Please feel free to elaborate and share your personal cancer story and use information from the fact sheet and talking points.

# Lawmaker Meeting: Do & Don't

## Do:

- Look and act professional
- Introduce yourself and tell the legislator where you are from
- Stay on message
- Be prepared to wait
- Know the asks and something about it
- Be efficient and articulate; the meeting should be brief and concise
- Ask for your legislator's support for the issue
- Stop discussing the issue if you get a "Yes"
- Leave a one-pager about the issue
- Turn off your cell phone
- Thank the lawmaker (be sure to also send a thank-you note)

## Don't:

- Attempt to answer questions you don't know the answer to or commit to anything you aren't certain of
- Get angry or hostile
- Get distracted by small talk
- Mention your political affiliation
- Leave behind materials that aren't provided in this packet
- Lobby on other issues
- Get defensive if an elected official doesn't support our legislation

# Lawmaker Meeting: Schedule

## Keep track of your meetings:

Chamber	Name	Meeting Time	Meeting Notes	Do they support or oppose?	Do they have a cancer story?
House					
House					
House					
Senate					
Senate					

### Meeting Outline:

**Hook:** Leader makes introduction.

**Line:** Explain the need.

**Sinker:** Make the ask.

### Remember:

Be polite and professional to lawmakers and interns.

It is okay to look at your notes!

Your personal story matters more than anything else.

Your legislators work for you and your voice matters

#HICancerActionDay

# Report Back Form

**HOW WAS YOUR  
LAWMAKER MEETING?**

## Report back and let us know how your meeting went

Your feedback helps our staff provide additional information to lawmakers and make strategic decisions in successful campaigns. Share with us what you heard from your lawmaker during your recent visit.

Remember: One report back form should be completed for each lawmaker meeting

**Scan the QR code or visit:**

**[www.fightcancer.org/reportback](http://www.fightcancer.org/reportback)**

**Scan the QR code or visit:**

**#HICancerActionDay**

# Social Media

## Before Event

- Draft 3 social media posts that you can later copy and paste.
  - Who do you want to reach?
  - What story are you trying to tell?
  - What is one fact you want people to know?
- Share your personal story related to our asks at Cancer Action Day the night before.
- Follow your lawmakers on social media

## During Event

- Don't forget to post about what's happening in real time!
- Use hashtag in every post.
- Post updates, pictures, and tag lawmakers who volunteers are visiting.
- Tell lawmakers and their staff about our hashtag and handle and encourage them to use it.
- Thank lawmakers for meeting with us in a post and tag them in it. If possible, include a photo with the lawmaker for better engagement.
- Post an accompanying action alert for your campaign on your social media channels.

## After Event

- Post pictures of lawmaker meetings and tag their handles. Remember to mention the legislation or campaign discussed and include the event hashtag.
- Share engage with other volunteers posts. Like, share, and comment.
- Share ACS CAN Hawai'i posts on social media

# Social Media, Continued

## Sample Posts

- Great meeting with [[@LAWMAKERHANDLE](#)] during #HICancerActionDay and discussing why it's so important to [[state issue](#)] in Hawai'i. Let them know why you think it's important, too!
- Spending the day at the Hawai'i Capitol with @ACSCANHI asking lawmakers to make [[state issue](#)] a priority! #HICancerActionDay
- Thank you [[@LAWMAKERHANDLE](#)] for making [[state issue](#)] a top priority! #HICancerActionDay
- @ACSCANHI volunteers will be talking to lawmakers in 1 week at #HICancerActionDay about [[#state issue](#)]. Check back for photos & updates!

#HICancerActionDay

## **Congratulations!**

Cancer action day is completed! You should feel proud of the effort and the impact of your meetings.

**Follow the steps below to properly wrap up your experience and tie any loose ends.**

### **Social Media Posts:**

Thank you @[legislator handle] for meeting with [State Handle] volunteers today to hear our stories and policy priorities. Together we can #FightCancer [Event Hashtag]

Sorry we missed you, @[Legislator handle], during [State Handle] Cancer Action Day. We hope you will prioritize cancer patients in your policy positions this session. [Event Hashtag]

### **Hand-Written Notes:**

Use the cards in your packet and write a note for any legislators who you wanted to speak to, but weren't able. Just a quick "sorry we missed you".

Also write brief thank you notes for all legislators who took the time to meet with you.

Turn in these note cards to your staff partner.

### **Stay Involved:**

Follow us on social media @ACSCANHI

Visit [fightcancer.org/hi](http://fightcancer.org/hi)

Sign up to volunteer! [fightcancer.org/volunteer-for-acscan](http://fightcancer.org/volunteer-for-acscan)

### **Remember:**

Cancer Action Day is only one way to advance our priorities.

Think about how you can leverage this event to continue our life-saving work back home.

## **What do I wear?**

ACS CAN Blue shirt, comfortable walking shoes.

## **What time do I need to be at the Capitol? When are we done?**

Check in is at 9:00am–9:30am in RM 437. End at 3:00 pm.

## **Who should I contact with questions?**

Cynthia Au, Government Relations Director:

- Phone: 808.392.3229 or 808.460.6109
- Email: [Cynthia.Au@cancer.org](mailto:Cynthia.Au@cancer.org)

Jenny Hausler, ACS CAN Senior Advisor

- Phone: 808.368.4594
- Email: [jenhausler@hotmail.com](mailto:jenhausler@hotmail.com)

## **What should I bring with me?**

- Photo ID – or you can't get in the building.
- We will provide water. Water Bottle (optional– refill stations at the Capitol)
- A watch/cell phone to keep track of time

## **Can we watch a committee hearing or general session?**

As a group we will attend both House and Senate Floor Chamber session. If any of the bills are heard on Cancer Action Day, we can attend.
