

# WE ARE ACS CAN

Since 2001, the American Cancer Society Cancer Action Network (ACS CAN) has been advocating for evidence-based public policies to reduce the cancer burden for everyone.

As a nonpartisan organization, we work to defeat cancer by helping to protect and increase public investment in groundbreaking medical research, and by improving access nationwide to the latest prevention and early detection measures, treatments, and follow-up care that are proven to save lives.

We engage our volunteers across the country to make their voices heard by policymakers at every level of government.

To learn more about our work in New York State and New York City, please visit our web site at [fightcancer.org/NewYork](https://fightcancer.org/NewYork)

# JOIN THE MOVEMENT

## Become a volunteer.

The success of our movement to advance health equity in our state relies on the work of our dedicated volunteers. They assist us in taking action, lobbying at the capitol, and helping to spread the message of ACS CAN throughout every borough in NYC.

## Share your story. Make an impact.

Your story is what distinguishes you from a statistic or a policy. It also puts a human face on a disease that impacts millions of Americans every year. Your lawmakers are overwhelmed with numbers and studies. They need to hear stories about people – real people in their community or district. People like Jamil. People like you.

**Share your story at [act.fightcancer.org/a/yourcancerstory](https://act.fightcancer.org/a/yourcancerstory)**
