

CHOOSE WISELY.

It's time for Congress to pass FDA regulation of tobacco and put our children first. By supporting strong FDA regulation of tobacco products, including the authority to crack down on marketing to kids, Congress can protect children from the leading cause of preventable death in this country. With the futures of so many at risk, we can't settle for anything less.

CONGRESS, PROTECT OUR KIDS.

PASS H.R. 1108, MEANINGFUL FDA REGULATION OF TOBACCO.
