

**NOW**

RESEARCH CONTINUES.  
A FATHER GETS TO HOLD HIS DAUGHTER.

**LATER**

RESEARCH STOPS.  
SO DOES HIS LIFE.

Every day, new breakthroughs in cancer research are saving countless lives. But if Congress fails to increase funding for cancer research at NIH, progress will come to a halt and even more promising new treatments will never reach patients. With 1 in 2 men and 1 in 3 women being diagnosed with cancer in their lifetime, we can't afford to stall our fight.

**ACTION**

**NOW**

NOT LATER
