

PROTECT MEDICAID

- Medicaid is essential in the fight against cancer.
- Medicaid provides access to life-saving care for cancer patients.
- Medicaid covers cancer screenings, tests, treatments, surgeries, medications, and follow-up care.
- More than 1.2 million (21%) of LGBT+ people rely on Medicaid for their health coverage.
- More LGBT+ people are covered by Medicaid than non-LGBT+ people.
- Protecting cancer patients means protecting Medicaid.

Ask Congress to oppose cuts to Medicaid and help save more lives from cancer!
