

Take Home Assignment

How do you take the momentum gained in Washington, DC home with you? We challenge you to take all these actions and share with your ambassador team back home! Make sure you maximize the impact you made at Leadership Summit & Lobby Day by working on the below actions over the next 4 weeks. And be sure to share progress with your team and record actions in the Ambassador Action Center.

Ensure Member Support:

- Share photos of your experience on your social networks, including a photo with your lawmaker (make sure to ask first!); tag your lawmaker to thank him/her for meeting with you and make a plug for your asks.
- Send a thank you note or email to your Senator, Representative and any of their staff that you meet with at Lobby Day.
- Within 2 weeks of LS&LD call or email your senator and representatives offices (better yet - get a card for the staff you meet with and email them directly!) to follow up on the asks; especially those offices you asked to co-sponsor the DIVERSE Trials Act and MCED!
- Submit a Letter to the Editor about your experiences at LS&LD using the templates provided by your staff partner and regional media team member.
- Participate in the nationwide Cancer Votes volunteer opportunity! Check with your staff partner for details.

Share with your Team:

- Share key take-aways from the sessions with your team members who were not in attendance.
- Share a summary of your meetings with others on your team - ask them to email the office asking to co-sponsor the DIVERSE Trials Act and MCED and support increased funding for cancer research & prevention programs.
- Continue to share learnings with your team following the November All Leads call.
