

2022 ACS CAN SLA Summit

COVID-19 Precautions

The health and safety of our immune compromised volunteers, staff, and community at large are of the utmost importance to us. For this reason, all participants (staff and volunteers) will be required to be fully vaccinated.

Prior to the event, participants will be asked to acquire and administer their own COVID-19 tests. We will reimburse these costs to the extent that they are not covered by insurance.

Once in Denver, participants will be directed to use the CLEARED4 mobile health verification platform to answer some standard questions about current health status each morning. Participants will receive instructions on how to use the platform in March, and onsite assistance will be available to anyone who needs help.

All staff and volunteers will be asked to self-report if they later contract COVID-19 and believe they could have received or spread the virus at the event. In addition, we are planning to require all individuals attending Summit to wear masks throughout the event.
