driven and counting...

Congress: Invest in cancer research at the NIH at no less than \$47.7 billion, fund the NCI at least at \$7.38 billion and increase funding for CDC cancer prevention programs. We have made great strides, but with more than 2 million diagnoses expected in 2024, there is still work to do in the fight to end cancer as we know it, for everyone. Make time for patients and survivors like Miguel Melendez.

FIGHT CANCER : MAKE TIME

Miguel Melendez
