

Congress: Don't negotiate with cancer.

No cuts to cures or care.

More than 1.9 million people in the U.S. will hear the words, "You have cancer" and more than 609,000 individuals will die from the disease this year. Congress should oppose any debt ceiling proposal that threatens funding for cancer research or creates barriers to health insurance through Medicaid work requirements.

Don't set us back in the fight against cancer.
