

2022 Multi-State Volunteer Summit

AZ, NM, NV, OR & WA

fightcancer.org

Before We Get Started

- **Please keep your microphone muted.**
- Use the chat for questions and comments throughout the Summit.
- Before we get started, we have allotted several breaks throughout our time together, however if you need to step away, please feel free to do so.
- Survivor Recognition!

Welcome

**Marissa Brown, Senior Vice President, State & Local
Advocacy**

Roll Call!!

Latoschka Nether, GRM Nevada/Utah

Ice Break-Out

- Name
- How long you've been an ACS CAN volunteer
- Why you are passionate about fighting cancer
- A fun fact/or your favorite fact about your state.

The screenshot shows a web browser window displaying the Ambassador Action Center page. The browser's address bar shows the URL <http://www.fightcancer.org/ambassador-action-center>. The page header includes the "20 YEARS Cancer Action Network" logo on the left, a user greeting "WELCOME, ANNALEE FOSTER" with a dropdown arrow and a "SIGN OUT" link in the center, and social media icons for Facebook, Twitter, Instagram, and LinkedIn on the right. A prominent red "DONATE +" button is located in the top right corner. Below the header, a navigation bar contains the links "MY ACTIVITY", "MY TEAM", "RECORD AN ACTION", "LEADERBOARD", and "OVERVIEW". The main content area features a large banner image of two smiling women. Overlaid on the right side of this banner is a white box with the text "Welcome Back!" and three star-bulleted links: "View Your Activity", "Check On Your Team", and "Report an Action". The Windows taskbar is visible at the bottom of the screen, showing the time as 11:24 AM on 5/18/2022.

- ★ View Your Activity
- ★ Check On Your Team
- ★ Report an Action

11:24 AM 5/18/2022

Get Media Coverage

- ☐ Be quoted in a media story or speak during a press conference
- ☐ Send a letter-to-the-editor to support an ACS CAN campaign or event
- ☐ Post your published letter to the editor tagging only your lawmaker or target (one-time only)
- ☐ Send a hard copy of your published letter to the editor to target lawmaker
- ☐ Share your cancer story with state story bank and/or ACS CAN's national story bank
- ☐ Join ACS CAN's social media channels (Facebook, Twitter, Instagram)
- ☐ Share ACS CAN content (repost/retweet) on your personal social media account
- ☐ Lawmaker or Cancer Votes target candidate reposts/retweets your message or replies to message publicly
- ☐ Contact media to promote an ACS CAN event or fundraiser

Connect with Partners

- ☐ Attend Relay For Life meetings such as team captain, kick-off event, etc. to promote ACS CAN membership recruitment or implement our ACS CAN campaign at a Relay event
- ☐ Attend a Making Strides Against Breast Cancer kick-off to promote ACS CAN membership recruitment or attend the event to help implement ACS CAN's Power of the Purse campaign effort
- ☐ Represent ACS CAN at other ACS events including board meetings, volunteer leadership committee meetings, golf outings, etc.
- ☐ Represent ACS CAN at cancer-related or community events to promote ACS CAN membership or current legislative campaigns
- ☐ Represent ACS CAN at non cancer related or community events to promote CAN membership or current legislative campaigns
- ☐ Make an ACS CAN sponsorship ask

Money Raised for ACS CAN

Your current fundraising total will feed in automatically. No need to log reports in this category!

Create Activity Report | American Cancer Society

https://www.fightcancer.org/node/add/volunteer-activity

11:25 AM 5/18/2022

Select a type of activity and we'll ask you a few more questions about your activity.

What did you do? *

Pick one item that best describes your activity.

Impact Your Lawmakers

☐ Office meeting with a lawmaker (or lawmaker's staff) or Cancer Votes target candidate

☐ Office Drop-By

☐ Personal Letter

☐ Seasonal Card

☐ Personal Phone Call

☐ Personal E-mail

☐ Tag lawmaker on social media (up to twice per month unless pre-approved by staff partner)

☐ Attend town hall or other meeting where lawmaker is present or Cancer Votes target candidate is present

☐ Collect 50 petitions in a current campaign

☐ Forward online petitions and alerts to 10 contacts

☐ Participate in canvassing, phone banking, or collecting signatures for a state campaign

☐ Testifying at city council, state house, or federal hearing

☐ Host a lawmaker at an ACS / ACS CAN event

☐ Secure a new co-sponsor on a state or federal bill

☐ Conduct a power analysis of a state or federal lawmaker

Build or Connect With Your Team

☐ Recruit a new Legislative Ambassador

☐ Recruit 3-5 people to attend a state lobby day, ACS CAN rally, or represent ACS CAN at Relay or Strides

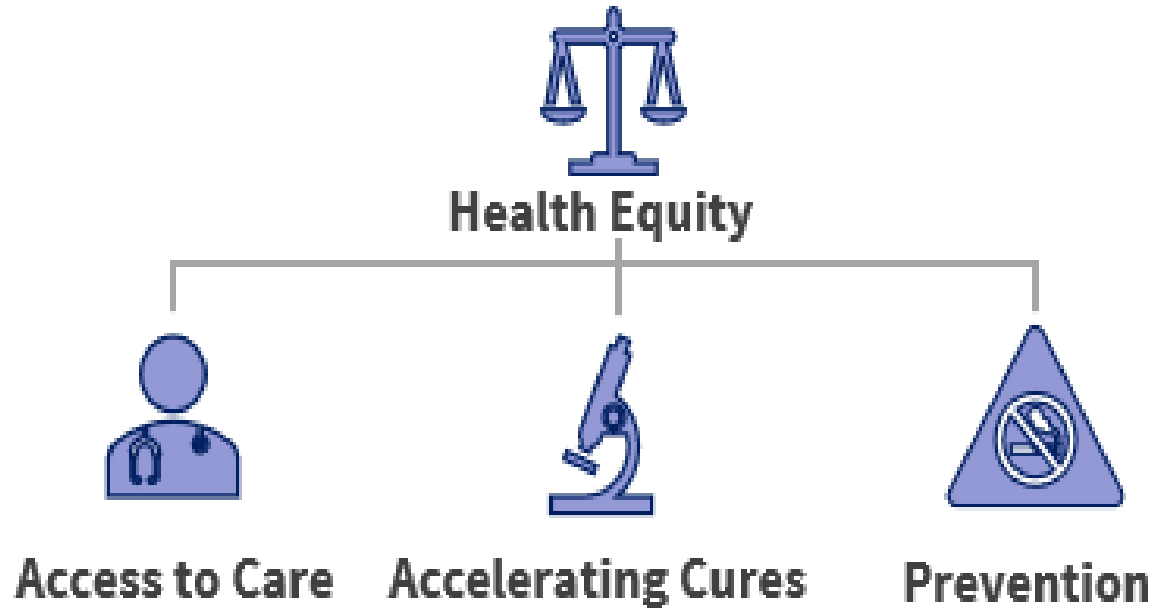

☐ Attend volunteer meeting for your congressional district, your state, or at the national level

Federal Advocacy Update

Stephanie Krenrich, Senior Director, Federal Advocacy

Federal Advocacy Update

Key Federal Campaigns for 2022

Access to Affordable, Quality Care

Expand equitable access to affordable, adequate health insurance coverage, cancer early detection and screening, and quality care

Health Equity

Woven throughout campaigns; Specific goals include increasing diverse clinical trial enrollment (DIVERSE Trials Act) and laying groundwork for patient navigation campaign

Funding for Cancer Research & Prevention

Increased federal investment in NIH/NCI research and CDC cancer programs; work on tobacco control and cessation

Patient & Survivor Quality of Life

Establish national paid leave program for patients with serious illness & their caregivers; Pass the Palliative Care and Hospice Education and Training Act (PCHETA)

Cancer Research & Prevention

Fiscal Year 2023 Appropriations Process Underway

ACS CAN FY23 asks:

- NIH – TBD
- ARPA-H - TBD
- NCI - \$7.76B (\$853M increase)
- DCPC - \$462.6M (\$72.8M increase)

Cancer Moonshot

- Administration effort to cut the cancer death rate 50% over the next 25 years with a focus on prevention, screening & research
- Not one bill - a framework demonstrating commitment to enact policy change to reduce the cancer burden

Access to Care

Reconciliation

- Formerly known as “Build Back Better,” stalled in the Senate in late 2021
- ACS CAN is ramping up campaign activities this spring on our asks
- Priorities:
 - Permanent extension of enhanced ACA subsidies
 - A federal fix for the Medicaid Coverage Gap
 - Out of pocket cap on Medicare Part D, plus “smoothing”

Medicare Multi-Cancer Early Detection Screening Coverage Act (MCED), HR 1946/S 1873

- Latest Cosponsors List: 194 in the House, 39 in the Senate (as of early May)

Diversifying Investigations Via Equitable Research Studies for Everyone (DIVERSE) Act

- 1 out of 5 cancer clinical trials will fail because of inadequate enrollment
- Patients cite costs as one of the top reasons for not participating in clinical trials
- **DIVERSE Act** would make it easier for all patients to participate in clinical trials by removing some cost barriers:
 - Allows participants to receive financial compensation for **non-medical costs** (like transportation or lodging) of trial participation;
 - Allows participants to be provided with technology for remote participation

Patient and Survivor Quality of Life

Palliative Care and Hospice Education and Training Act (PCHETA)

- Patient Quality of Life Coalition (PQLC) Lobby Day on June 22
- Introduced week of May 16

Tobacco Control & Cessation

- Tobacco Case Proposed Settlement - Corrective Statements at Point of Sale (May 3)
- FDA Proposed Rules to Prohibit Menthol in Cigarettes and all Flavorings in Cigars (April 28)

Federal Priorities

- Cancer Research Funding
- Access to Care
- Multicancer Early Detection Screening Coverage Act

Current Cosponsors in our Group

Sen. Jackie Rosen (Nevada)

Sen. Mark Kelly (Arizona)

Rep. Derek Kilmer (Washington)

Rep. Jamie Herrera-Beutler (Washington)

Rep. Marilyn Strickland (Washington)

Rep. Suzan DelBene (Washington)

Rep. Earl Blumenauer (Oregon)

Rep. Kurt Schrader (Oregon)

Rep. Peter DeFazio (Oregon)

Rep. Suzanne Bonamici (Oregon)

ACS CAN Health Equity Team

Definition of Health Equity Through a Cancer Lens

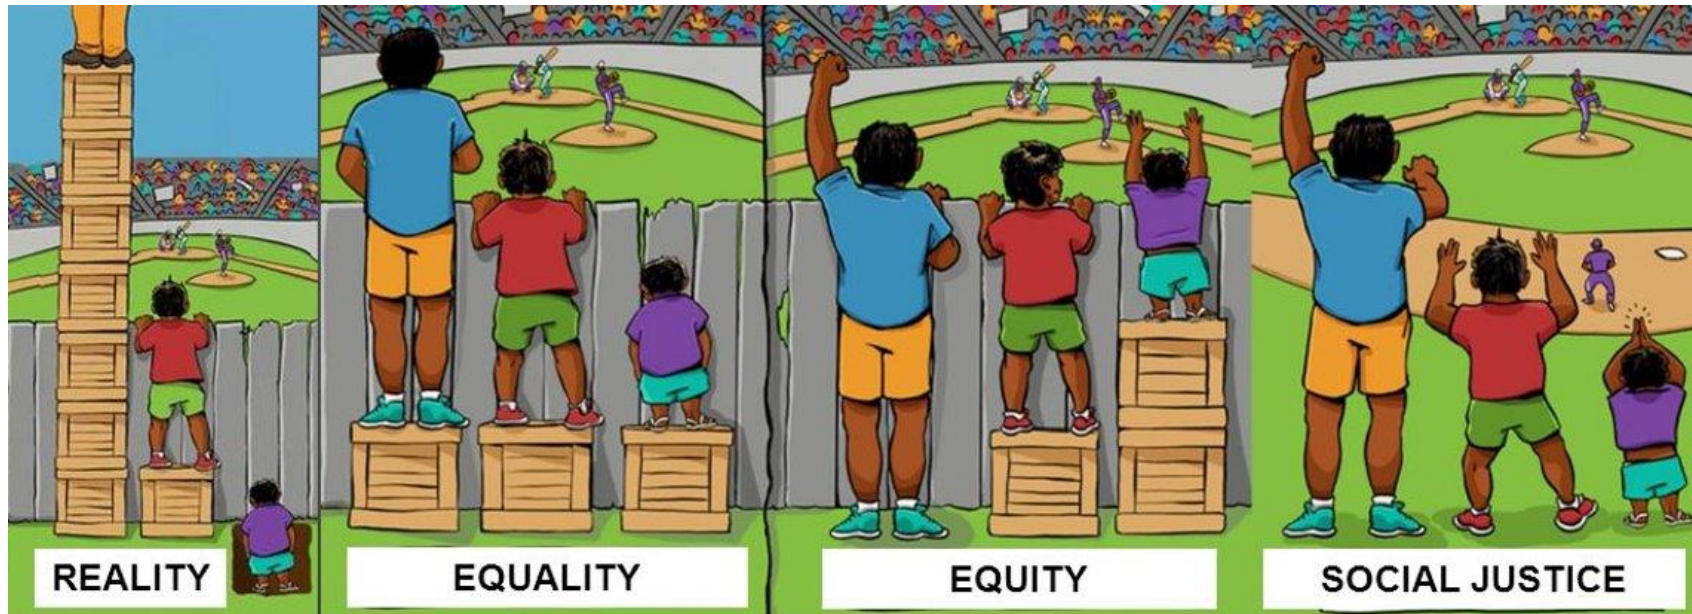

Everyone has a fair and just opportunity to prevent, find, treat, and survive cancer. Where you live, should not determine if you live.

Equity is not the same as equality.

Equality is providing everyone with the same tools and resources.

To achieve equity, individuals and populations with the greatest needs and least resources require different, not equal, effort and resources to improve their health.

Public Policy Change is Critical to Health Equity

Access to Care

**IT'S TIME TO
REMOVE HURDLES**

COVID-19 has shown a spotlight on the significant barriers to affordable health care that cancer patients have long faced. While relief packages and proposals to date have worked to address universality of COVID-specific testing and treatment, policymakers must also tackle hurdles that cancer patients face like removing the red tape of prior authorization and step therapy, reducing out-of-pocket costs, and ensuring cost-shifting assistance directly benefits patients. There has been a great deal of research and investment in effective therapies that allow people fighting cancer to survive and live longer.

Congress: cancer patients need you to act quickly to remove hurdles to quality care.

Tobacco Control

Accelerating Cures

 We Must Count
@WeMustCount

Today in @Thehill, WMC member @LLacasseACSCAN discusses how data gaps in public health hamper our ability to fight both COVID-19 and cancer, two leading causes of death.

The data deficits of COVID-19 mirror those of cancer. Moving forward, policymakers must make it a priority to ensure accurate, timely data collection for these deadly diseases.

Thank You

How Words Matter

A Look At Our Unconscious Bias

Dr. Carol Coram -SLA Washington State

Radious Guess-USA Track & Field

Gigi Melichar- USA Tack & Field

What is Unconscious Bias?
Building Awareness in the Workplace

Session FLOW

- INTRODUCTIONS
- GROUNDING
- TOPIC INTRODUCTION
 - **Bias [implicit (unconscious) and explicit]**
- Q & A

Radious

- Radius is a national certified Diversity, Equity & Inclusion Trainer and Facilitator. She has delivered keynotes and conducted workshops on the role and presence of whiteness, implicit bias and more!!!
- Radius received her BS from an HBCU, Jackson State University and MA from the University of Nebraska-Lincoln. Radius is married (29 years), has 3 children and 1 grandchild.

Gigi

- Gigi Melichar's own path to excellence is rooted in an unrelenting zest for empowering people.
- Gigi is committed to creating an infrastructure where more inclusive understandings of LGBTQIA2UA+ issues foster a sense of belonging for all.

Carol

- During Dr. Carol Coram's tenure as a teacher and school principal, she studied and researched the topic of unconscious bias. She presented the subject at various national education conferences around the country.
- Today's topic is near and dear to Dr. Coram. "Just as important as the behavioral change necessary to one day make it a thing of the past. There's so much work to do."
- Dr. Coram is the ACS CAN State Lead Ambassador for Washington

Learning Intentions

- To examine systems and self for unconscious bias
- To understand the root cause of stereotypes and prejudice in our society
- To understand how implicit biases play a role in our daily lives
- To understand the importance of recognizing your bias when making decisions

Grounding

- We are excited to be on this learning journey with you.
- Take three deep inhalations and exhalations

Glossary of Terms

- **Bias** - Reflects a stereotype or prejudice but is not illegal
- **Discrimination** - Illegal behavior concerning equal access and/or treatment that violate federal, state or local laws
- **Implicit Bias** - negative associations that people unknowingly hold. They are expressed automatically, without conscious awareness
- **Explicit Bias** - explicit biases are intentional and controllable. With explicit bias, individuals are aware of their prejudices and attitudes toward certain groups.
- **Microaggressions** - The everyday verbal, nonverbal, and environmental slights, snubs, or insults, whether intentional or unintentional, which communicate hostile, derogatory, or negative messages to target persons based solely upon their marginalized group membership.
- **Gender Inequality** - Gender inequality is discrimination on the basis of sex or gender causing one sex or gender to be routinely privileged or prioritized over another.

**Everything we see, hear, or feel
is affected by our biases.**

We all have unique experiences that have shaped our version of the truth and created the lens through which we see the world. Humans operate on bias, either consciously or subconsciously.

Biased, Who Me?

- Research has shown that men and women alike start to treat people who are racially, culturally and ethnically different within milestones of seeing them.
- People with the best of intentions toward equity and inclusion can harbor attitudes and beliefs that affect their thoughts, feelings and actions outside of their awareness.

How are our biases reinforced?

- Once learned, stereotypes and prejudices resist change, even when evidence fails to support them or points to the contrary.
- We embrace anecdotes that reinforce our biases, but disregard experience that contradicts them.

We all have biases...

How do we learn our biases?

- Social scientists believe children begin to acquire prejudices and stereotypes as toddlers.
- Many studies have shown that as early as age 3, children pick up terms of racial prejudice without really understanding their significance.

Gender Bias Effects

Gender biases could affect training and careers in four ways:

- Biases in workplace
- Epistemic injustices
- Role stereotypes
- Experiences of objectification.

Ways to Eliminate Gender Bias

- Educate Your Employees on Gender Bias
- Evaluate Hiring Practices
- Review Your Recruiting Processes
- Stand Up to Gender Bias When It Happens

Six Forms of Unconscious Bias

1. Exclusion
2. Stereotyping
3. Isolation
4. Linguistic
5. Selectivity
6. Unreality

REMEMBER...

- Bias is not limited to race and ethnicity
- Unconscious bias is more prevalent
- Everybody holds unconscious bias beliefs
- Unconscious bias is detrimental to others

Discussion Questions

1. What are some biases that you have seen or experienced in your life?
2. How can you in your role(s) address bias and its negative impacts?

Peer to Peer Fundraising

Why Fundraise for ACS CAN?

To Make the Fight Against Cancer a Top Priority

Work for access to care
for all Americans

Fully fund our nation's
research budget

Prevent death from
cancer

Support Issue Campaigns

Persuade lawmakers to
support laws and
policies proven to help
people fight cancer

Train our network of grassroots volunteers

to make them effective
advocates to push our
mission forward

Welcome to Marina's Lights of Hope Page

On September 18, ACS CAN will be hosting its 11th annual Lights of Hope event. This year will be truly special as we celebrate ACS CAN's 20th anniversary. Lights of Hope bags dedicated to loved ones who have been touched by cancer will be displayed in communities from coast to coast. Please join me in bringing Lights of Hope to our community.

I am excited to be a part of this and I'll be honoring my friends and family who have been touched by cancer with personalized Lights of Hope Bags.

My Mom's - and my own survivorship. Yahoo! I will also be honoring a couple of very dear friends whose names I would mention...but giving them their privacy... You know who you are!

I will also be remembering with love, never to be forgotten, my Nana, cousin Billy, Sandy, Dennis, and my friends and patients from Hillman Cancer Center that I have lost. I'd love for those you know who have been touched by cancer - friends and loved ones - to be part of it too.

One Step, One Year, One Dollar

1973-2015

It was an idea that came from a conversation with my niece: **"What if every survivor or caregiver donated one dollar for every year of survivorship?"**

I am a 26-year survivor of breast cancer and longtime ACS CAN volunteer, I had traveled to Israel to be with my niece Tali who had been diagnosed with breast cancer. I was telling Tali how volunteering for ACS CAN had become a passion of mine.

"I said to her, 'All it takes is one step, one day...' and then she looked at me and said '...one dollar', finishing my sentence."

The conversation sat with me as I began to think about how the act of simply donating one dollar per year of survivorship, could add up to not only an enormous amount of fundraising, but also something greater: the total years of survivorship. The impact this had on me was what motivated myself to start the **"One Step, One Year, One Dollar"** campaign.

Just a month shy of her 42nd birthday, Tali passed away from breast cancer. Today, I hope to keep her memory alive by spreading the message of the **One Step, One Year, One Dollar** campaign with others. In the hope that others will create their own **One Step, One Year, One Dollar** campaign.

I am donating \$26 as a celebration of my anniversary of 26 years of survivorship. "I ask all survivors to join me in doing so, in honor of your own years of good health or in memory of loved ones you have lost."

Donna's ACS CAN Birthday Fundraiser

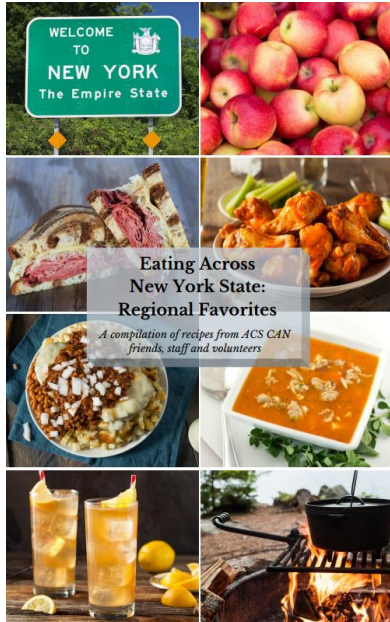

It's My Birthday Month! I hope you'll join me in celebrating by donating to an organization that is very important to me – the American Cancer Society Cancer Action Network (ACS CAN).

ACS CAN is the nation's leading cancer advocacy organization; encouraging lawmakers to support policies that lead to the prevention, early detection and treatment of cancer.

I'm excited to have you as part of this special event. Together, we can help save lives from cancer.

The Power of Storytelling

Tomica Smith, Senior Outreach Manager
State & Local Campaigns

Medicaid **covers** US

Overview

- Why Storytelling?
- Stories and ACS CAN
- Telling Your Own Story
- Different Versions for Different Audiences
- Next Steps in My Story Journey

A photograph of a family of three standing in a sunlit forest. A woman with short dark hair is in the center, with her arms around the shoulders of a young man on the left and a young woman on the right. The young man is wearing a grey and white striped long-sleeved shirt. The young woman is wearing a pink top under a blue denim jacket. The background is a dense forest with many trees and green foliage.

Why Storytelling?

Your Story is Your Why!

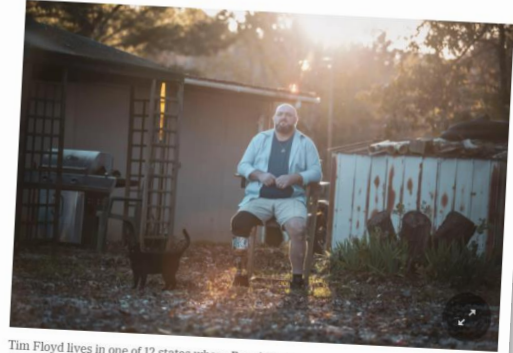

Importance of stories

- Cut through the politics
- Humanize an issue
- Helps people imagine themselves in that position

The New York Times

Democrats' Bill Would Go Far Toward 'Patching the Holes' in Health Coverage

Taken together, the provisions in the social policy bill represent the biggest step toward universal coverage since the passage of the Affordable Care Act.

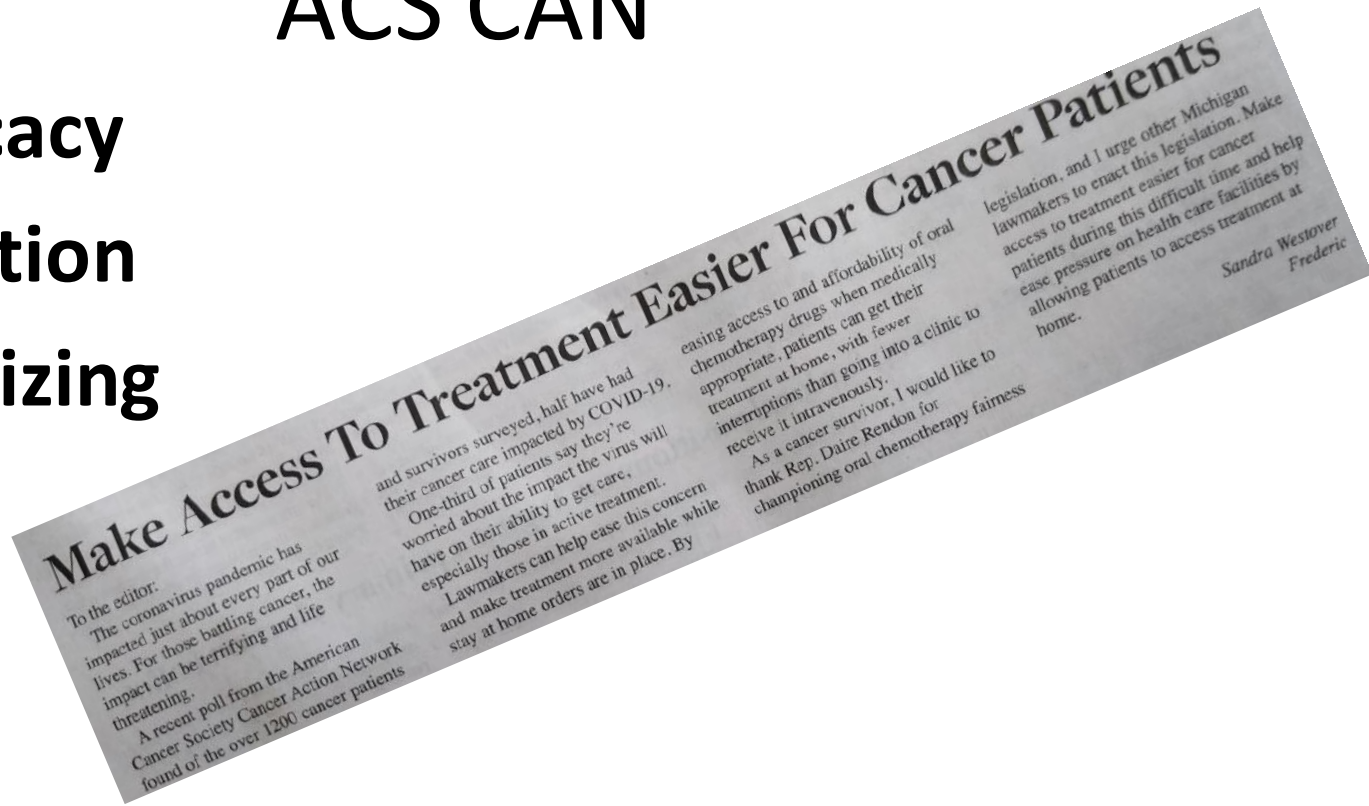

Tim Floyd lives in one of 12 states where Republicans have refused to expand Medicaid, making health insurance even less accessible for an estimated 2.2 million low-income adults. Andrea Morales for The New York Times

Erasing the 'Coverage Gap' for Poor Adults

Tim Floyd of Guntown, Miss., was working construction jobs in 2012 when he noticed numbness in his foot. It was neuropathy, a sign of diabetes. But he was uninsured and could not afford a doctor visit.

How we work with stories at ACS CAN

- Advocacy
- Education
- Organizing

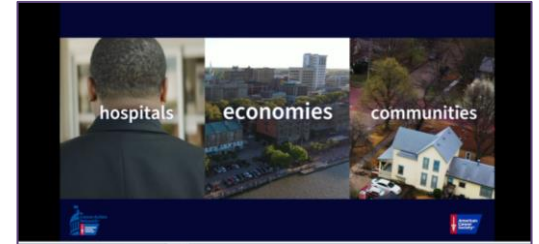

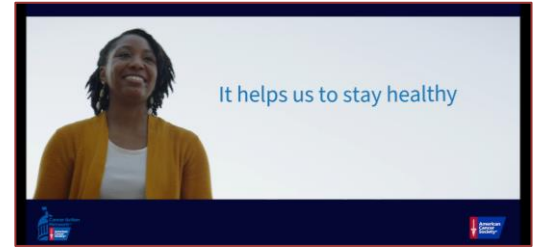

Story campaign example: *Medicaid Covers US*

- **Public education project** about the importance of Medicaid and need for Medicaid expansion for families, communities, the economy and the health care system.
- **An opportunity to share stories** to help people understand what Medicaid is and why it is a vital program.

Video

<https://vimeo.com/402566328>

Password: **SLA2020**

Telling Your Story.

- **Your Introduction**
- **What Happened?**
- **What Helped?**
- **How You're Different Today?**
- **What is the Need or Problem?**
- **What Will Help Others**
- **Your ASK!**

Different Audiences.

- Your Story Can Always Help Someone!
- Share Your Story
 - Legislators
 - Family and Friends = Potential Volunteers
 - The Media

Next Steps

- We Want to Hear Your Story!
