STAND UP FOR TOBACCO-FREE PHARMACIES

Tobacco does not belong in pharmacies.

Deadly tobacco products should not be sold alongside life-saving medications. Support ending tobacco sales in California pharmacies. **Sign the petition today!**

The facts are clear:

- Tobacco is the #1 preventable cause of death in California.
- Pharmacies are an important part of our healthcare infrastructure as people utilize them for health information and medical needs. Selling products at these facilities that kill over 40,000 Californians every year sends the wrong message.
- Youth exposed to tobacco in stores are more likely to start smoking—and pharmacies are often near schools, clinics, and neighborhoods.
