

## U.S. SENATE

**Michael Bennet**  
Democratic

**Joe O'Dea**  
Republican

*This candidate has not yet responded to the ACS CAN questionnaire.*

### SAVING LIVES THROUGH CANCER RESEARCH

Rarely has the importance of medical research been more apparent than during this ongoing pandemic. Increasing federal funding for medical research is critical to promoting further discovery. Will you vote for sustainable annual increases in cancer research funding for the National Institutes of Health and the National Cancer Institute?

#### MICHAEL BENNET

**Yes**

### ACCESS TO HEALTH CARE

Access to affordable, quality health care can determine whether you live or die from cancer. Will you support legislation to provide Americans access to affordable, quality health care that will ensure access to health insurance for everyone in the Medicaid coverage gap and ensure greater affordability of Affordable Care Act marketplace plans?

#### MICHAEL BENNET

**Yes**

### EQUITY IN CLINICAL TRIALS

Clinical trials are key to advancing new standards of care that can improve survival and quality of life for people with cancer, but to be successful, trials must have adequate participation, including diverse participation from currently underrepresented groups. Will you support legislation to ensure more patients — regardless of their race, ethnicity, economic means or their geographic location — have a chance to enroll in clinical trials?

#### MICHAEL BENNET

**Yes**

ACS CAN, the nonprofit, non-partisan advocacy affiliate of the American Cancer Society, supports evidence-based policy and legislative solutions designed to eliminate cancer as a major health problem. ACS CAN works to encourage elected officials and candidates to make cancer a top national priority. ACS CAN gives ordinary people extraordinary power to fight cancer with the training and tools they need to make their voices heard.
