This candidate has not yet responded to the ACS CAN questionnaire.

THE CANCER PROMISE

I recognize the critical role that elected officials play in leading public policy changes that are vital to the fight against cancer. As such, I promise to help advance policies and legislation supported by ACS CAN that work to end cancer as we know it, for everyone, by accelerating cures, improving access to care, and ensuring access to cancer prevention and early detection services, including tobacco control. If elected, I pledge to:

- Support sustainable annual increases in cancer research funding for the National Institutes of Health and the National Cancer Institute.
- Protect existing laws and support legislation to expand health care options that help patients access quality, affordable health care.
- Support legislation to ensure access to cancer prevention services, including tobacco control and access to lifesaving cancer screenings.
